*Dillon's Fight
for a Cure*

Dillon's Army continues the support on behalf of Dillon and the Papier family to help find a cure for Niemann-Pick Type C disease which effects only 500 individuals worldwide. Dillon's fight over the last 14 years touched and inspired a community of thousands.

The symptoms of this disease include enlarged spleen and liver, clumsiness and loss of muscle control, deterioration of speech, seizures, and progressive neurological and intellectual decline. Many children die before the age of 10, or within 5–10 years of the diagnosis.

With your generosity, the National Niemann-Pick Disease Foundation, Inc. can support and empower patients and families affected by Niemann-Pick Disease through education, collaboration and research in hope of a successful treatment to spare other children and families from the devastating effects of this fatal disease that robs them of our most precious gift—life.
